Silver Palm

Premium Dairy Fat

Silver Palm is a premium quality rumen protected bypass fat made up of saturated long chain free fatty acids of 100% pure vegetable origin. It is produced by a fractionation process using 100% pure palm oil for best quality and to ensure high levels of C16.

Silver Palm is a highly digestible energy dense product in bead form for easy handling and mixing. It is free from dust and objectionable odor for high palatability.

Silver Palm is a fractionated fatty acid product, free from carriers and heavy metal products like nickel.

Silver Palm is highly stable at all weather conditions with a product melting point of around 137 degrees Fahrenheit. It is very stable in the rumen environment and does not interfere with fiber digestion. So ***Silver Palm*** fatty acids are available for absorption in the small intestine.

Silver Palm

- 100% Vegetable oil origin
- Energy dense product
- High palatability
- **Improves milk production**
- **Promotes butterfat content**
- Does not disrupt the digestion process in the rumen
- High in Palmitic Acid (C16) 85% Minimum
